

PUBLIC NOTICE

PERMIT APPLICATION: NRS #03-396

APPLICANT: State of Tennessee
Department of Transportation
Environmental Planning and Permits Division
Suite 900, J. K. Polk Bldg.
505 Deaderick Street
Nashville, TN 37243-0334
615/253-2477

LOCATION: Gimlet Road Bridge over Beeler Fork
Lawrence County

WATERSHED DESCRIPTION: The Beeler Fork watershed consists of Pickwick Lake, numerous wetlands, and tributaries. Land use is predominantly residential. Beeler Fork is primarily gravel/cobble bottomed and varies in width approximately 8-12 feet wide with 6 – 8 foot banks. The existing vegetation along the stream channel is mature hardwoods.

PROJECT DESCRIPTION: The applicant proposes to reconstruct the existing Gimlet Road bridge over Beeler Fork. The reconstruction project will require the relocation of 446 ft. of an unnamed intermittent tributary to Beeler Fork. Also existing is 24 ft. of 54" X 66" metal arch pipe. The applicant proposes to replace the pipe with 24 feet of 60" concrete pipe. The relocated channel would be constructed to duplicate the length, bottom channel width, elevations, meander wavelength, and curvature of the existing channel to the extent possible and riparian trees would also be planted. Standard erosion control devices would be used to prevent sediment from entering flowing water. Upon completion of the work, all disturbed areas would be stabilized.

PERMIT COORDINATOR: Brian Canada, STATE OF TENNESSEE, Department of Environment and Conservation Division of Water Pollution Control, 7th Floor, L&C Annex, 401 Church Street, Nashville, Tennessee 37243-1534

USGS TOPOGRAPHIC QUADRANGLE: Lawrenceburg, TN (52-NE)

TO WHOM IT MAY CONCERN: The application described above has been submitted for an Aquatic Resource Alteration Permit pursuant to *The Tennessee Water Quality Control Act of 1977*, T.C.A. §69-3-108.

The purpose of this notice is to advise all concerned of the proposal for which a permit is sought, and to solicit comments and information necessary to evaluate the probable impact of the activities upon the respective water resources. The decision whether to issue or deny will in part be based upon that evaluation. All factors that may be relevant to the proposals will be considered.

Persons wishing to comment on or object to the issuance of a proposed permit are invited to submit comments in writing to the Department of Environment and Conservation Division of Water Pollution Control at the address listed above. Written statements received in this office on or before the date of expiration of the comment period thirty days from the publication date of this notice will become part of the record and will be considered in the determination. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the director of the Division hold a public hearing on any application. The request must be filed within the comment period and must indicate the interest of the person requesting it, and the reasons that the hearing is warranted. When there is sufficient public interest, the director shall hold a hearing in accordance with Rule 1200-4-7-.04(4)(f).

After consideration of comments submitted during the public comment period, the hearing record if any, and the requirements of federal and State law, the director of the Division will make determinations regarding the final action on each permit. Permit applications, supporting documentation, and related comments are available for review and/or copying.
